

MS940

High cost performance and efficiency

MS940 is a black mild-solvent ink that is filled in cartridge originally for water based ink. By utilizing its smaller size nozzles, this ink can maximize the total number of prints per cartridge and be expected to reduce the consumable cost.

Features

- Developed mainly for cost reduction at users production site.
- The total shot number is about 1.5 times higher than standard solvent black ink IQ800 based on our lab test.
- Less frequency of cartridge replacement.
- Compliant with RoHS. PFAS Free.
