

IQ798Plus

Cutting-edge red ink compliant with French mineral oil rules

IQ798Plus is a solvent-based red ink that contains no mineral oil, aligning with tightening regulations in France. It delivers performance equal to or better than the existing IQ798, featuring sharp print quality, high stability, and strong adhesion.

Features

- High density, sharp printing, and strong adhesion. Excellent compatibility with a wide range of non-porous substrates such as films and foils.
- One-year shelf life
- Compliant with RoHS regulations, PFAS-free, and compliant with French mineral oil regulations.

Specification

Cartridge	HP 45si (1/2")
Color	Red ●
Ink grade	Solvent
Parameters	8.8V, 1.8μs
Pulse warming	Off
Shelf life	12 months from fill date
Storage temp.	15-35°C
Max frequency	12kHz

Suggested substrates

OPP	PP	PET	PE
PVC	Rubber	Glass	AL
Coated paper	Carton	Paper	Wood

Remarks

- Refer to SDS before use for safe handling.
- Before use, wipe the printhead gently with a dry lint-free cloth.
- After use, seal the printhead with the originally attached cartridge clip and store the cartridge with the position of its printhead UP until next use.
